

Turn-Around Reports for TCSEA

Once or twice each school year, you will be contacted via email by Laurie Harpenau at TCSEA for a turn-around report. Laurie is responsible for the I-Star reporting for TCSEA and the 16 member districts.

What is I-Star?

The IEP-Student Tracking and Reporting System (I-**Star**) is the agency's web-based system for collection of all special **education** students and personnel approvals and claims for reimbursement. ... I-**Star** validates all student entries via coordination and alignment with the Student Information System (SIS).

The I-Star System and Embrace program do not share information. Therefore, Laurie relies on special education administrators, special education teachers and SLPs to "review" her lists and make corrections.

You will receive instructions as well as class lists.

Please contact your special education administrator or Supervising SLP with any questions you may have.

NOTE: Your turn-around reports will be accurate if you are following all of the instructions for creating and maintaining Embrace files for your "S/L-only" students. This is found: **Embrace IEP Program: Embrace IEP/Reporting to TCSEA SLP Responsibilities.** There will be many errors if you haven't been keeping up with these.
